PROFILE

Enthusiastic CS student with expertise in MEAN, MERN stacks, AR, VR, and Flutter for mobile development. Proven ability to excel independently, rapidly acquire new skills, and maintain attention to detail. Eager to contribute technical proficiency to dynamic software development teams for impactful contributions.

EDUCATION

BS Computer Science

University of Engineering and Technology Lahore

10/2020 – present

Lahore, Pakistan

SKILLS

React • NextJS • Angular • Flask • Dotnet • JavaScript • TypeScript • Python • C++ • C#
Flutter • Unity • Node • Express • Dart • PHP • PyQt5 • TailwindCSS • Firebase
MongoDB • MySQL • GitHub • HTML • CSS

PROFESSIONAL EXPERIENCE

Software Development Engineer Intern @TIERS LIMITED

06/2023 – 08/2023

Developed websites with React, TypeScript, HTML, and CSS in the MERN stack, created backends using NodeJS, ExpressJS, and MongoDB, deployed projects on online hosting services, and gained valuable insights into customized screens for both web and mobile.

PROJECTS

Mindful Kids (React, TypeScript, Tailwind CSS, Flutter, Node, Express, MySQL, Unity)

04/2023 – present

- VR project with 3D environments using the CASEL framework for children.
- Developed a website and mobile app enabling parents to monitor and manage child activities in real-time through VR via socket communication.

Diabetes Prediction System (Flask, Python)

11/2022 – 01/2023

- Performed data preprocessing to optimize Logistic Regression model training.
- Developed a user-friendly website.

Trend Bazaar (AngularJS, Flutter, NodeJS, ExpressJS, MySQL)

09/2022 – 12/2022

- Developed Trend Bazar, an e-commerce platform for both mobile and web.
- Crafted distinct interfaces for admin, sellers, and users, building advanced dashboards for comprehensive financial analysis.
